Dana Mohammad Alanazi

Programming & Web Development Student

Riyadh, Saudi Arabia | dno.alanazi8@gmail.com
linkedin.com/in/dana-alanazi-675b07391 | github.com/Dalanazi | dalanazi.github.io

PROFILE

Programming and Web Development student with hands-on experience in IoT systems, Android and web development, robotics, and satellite tracking. Led two innovation teams in 2026: Aoun (qualified for SAIF 2026, patent pending) and MS SmartScan (1st place, Riyada AI Hackathon). Aiming to grow in cybersecurity and AI. Available for co-op training from 24 Jan 2027 for 14 weeks.

EDUCATION

Programming & Web Development Technology — Digital Technical College for Girls, Riyadh · GPA 4.52 / 5 — Current

SKILLS

Technical	Android Studio · PHP & Web · PL/SQL · Arduino / ESP32 · IoT (LoRa, GPS) · Networking & Security Basics · Git / GitHub · Robotics · Satellite Tracking & Monitoring Station Operations
Professional	Team Leadership · Pitching & Presenting · Project Management · Supervising Student Projects · Fast Learning · Delivering Under Pressure · Creative Thinking · Teamwork

PROJECTS

Aoun — Search & Rescue Tracking Device — Idea Owner, Programmer & Team Leader · 2026

- Two-way IoT system with a victim unit and a rescue unit: long-range LoRa link, GPS, solar charging, and a dispatch database, working without mobile coverage.
- Qualified for SAIF 2026 · Patent application filed (SAIP) · Graduation project

MS SmartScan — AI-Assisted MRI Analysis — Team Leader, Team Digital Sight · 2026

- Decision-support device that helps radiologists detect lesions in MRI scans using a YOLO model, running offline on a Raspberry Pi.
- 1st place, Riyada AI Hackathon · Accepted at Healthon 2026 (KSU Medical City) · Pitched to the judging panel
- College course projects: Authentic Doc certificate verification platform · Irth digital inheritance platform (prototype) · PHP trainee registration system

ACHIEVEMENTS

1st Place — Riyada AI Hackathon, Quality of Life & Sustainability track (MS SmartScan)	Nov 2026
Tournament Finalists — Team TVTCR1, nominated to the Saudi national robotics team for VEX U 2026	2026
Qualified — SAIF 2026 Exhibition & Competition, Smart Cities & IoT category (Aoun)	Nov 2026
Nominated — Prince Faisal bin Bandar Award, Outstanding University Student, 5th cycle	2026–27
Participant — Healthon 2026, KSU Medical City (MS SmartScan)	Oct 2026
3rd Place — Satthon 2 Satellite Signals Competition (Team Digital Apollo)	May 2026
Participant — RoboRAVE Competition, Saudi Federation for Robotics	May 2026
Build Award — National VEX Robotics Championship, University Category, PNU	Feb 2026
Excellence Award — RATK_2025 Robotics & AI Competition	2025

CERTIFICATES & TRAINING

Network Security & Analysis Fundamentals — Tuwaiq Club, PSAU	Oct 2026
Database Programming with PL/SQL — Oracle Academy	May 2026
Fundamentals of Global VEX Competitions — Digital Technical College	Oct 2025
IT Essentials (ITE 7.01) — Cisco Networking Academy	
Workshop Instructor: “Learn Robot Programming” — Digital Technical College	

LEADERSHIP & VOLUNTEERING

- Organized a visit for 33 students to Manarat Al-Riyadh to inspire graduation project ideas (Oct 2026)
- 21 certified volunteer hours on the National Volunteering Platform: Arab Orphan Day (Health Integration Association, Mar 2025) and new students meeting (Digital Technical College, Feb 2026)
- Misbar Space member · Saudi Radio Amateurs & Falak events · Programming & robotics workshops · Space science infographics and Arabic content
